

## **Mrs Ann Lloyd**

**Waranga Chronicle**

**2 January, 1873**

An inquest was held at the Whroo Mechanics Institute on Saturday, the 28th, on the body of Ann Loyd, [Lloyd] widow of the late Edwin Loyd, who was found dead in her bed on the morning of the 27th.

A *post mortem* examination was held by Drs McMillan and Heily, who found the immediate cause of death to be the rupture of a blood vessel on the lungs.

The deceased's death, although very sudden, was not altogether unexpected, as she has been a great sufferer for a number of years.

*Whroo interment register has Ann Lloyd, buried 29 December, 1872. This is her.*
